FCC Information and Copyright

This equipment has been tested and found to comply with the limits for a Class B digital device,

pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential

installation. This equipment generates,

uses and can radiate radio frequency energy and, if not installed and used in accordance with the

instructions, may cause harmful interference

to radio communications. However, there is no guarantee that

interference will not occur in a particular

installation. If this equipment does

cause harmful interference to radio or television reception, which can

be determined by turning the

equipment off and on, the user is

encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules.

Operation is subject to the

following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received,
including interference that may
cause undesired operation.

changes or modifications not expressly approved by the party
responsible for compliance could

void the user's authority to operate the equipment.

FCC RF warning statement: the device has been evaluated to
meet general RF exposure
requirement , The device can be used in portable exposure
condition without restriction
